

#### Best with Everpure® Taste Beverages

Quality food service products start with the best quality water, which ensure energy efficiency and maximum equipment life. Everpure® products provide proven technology to provide you with premier water for all of your food service needs: drinking water, ice, fountain beverages, coffee and steam.

Boiler Steam

Coffee

Espresso

Iced Tea

Fountain Beverages

### What's Your Filter Size?

Pentair® Everpure® replacement filter cartridges are manufactured in five different height configurations. Each cartridge has a size designation of:

2-size = 10.25" tall 4-size = 14.50" tall

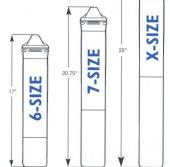

6-size = 17" tall

7-size = 20.75" tall

X-size = 25" tall

## Water Testing & Analysis

It's smart to know what's in the water. Everpure's Standard Foodservice Analysis offers everything you need to grow your water filter sales using testing information. The program includes:

- An easy-to-use water test kit
- A custom water analysis to help foodservice operators better understand their water quality
- A tailored product recommendation— the right solution to ensure the operator has premium water to serve and equipment that operates in peak condition.

#### Standard Foodservice Analysis 7013-73

Includes water bottle and lab analysis of 30 contaminants and characteristics

## Carbonless Ice Machine Filters

Aids in ASHRAE 188 Compliance

Everpure® 4SI and 7SI carbonless water filters help protect patients, guests and staff at hotels and medical facilities from waterborne bacteria that causes Legionnaires' Disease. This cost-efficient filtration system keeps ice machines in compliance with ASHRAE Standard 188 and helps provide critical protection from protozoan cysts and scale damage.

- Allows chlorine to pass through, which can help reduce slime and bacteria growth inside the ice machine and ice bin
- Reduces harmful cysts by mechanical means
- Ideal for food service applications where baking of breads and pastries is done on-site

### Phosphate Feeder

#### **Prefilters**

#### **SRX Scale Inhibitor Feeder**

A complete system for the control of scale in ice, coffee, steam, and combination applications. The system includes a black housing and one cartridge.

Part Number	4621-05 (9798-45)

Optional: Post-filter bracket kit for all multiple filter head systems manufactured after 2003: 4621-06 (3114-35)

SRX scale inhibition feeder replacement cartridges.

MF-7 Part Number 4621-13 (9799-32)	
MF-/ Part Number 4621	-13 (9/99-32)

(Replacement cartridge for AR-X 7" housing)

(Replacement for SS-10 scale sticks)

#### **Coarse Prefilter Systems**

A 10" and 20" housing, each including replaceable prefilter cartridges. Filters out larger dirt and rust particles thereby extending the life of submicron filters.

E-10 (10") Part Number	4621-42 (9795-80)
E-20 (20") Part Number	4621-44 (9795-90)

Optional: Pre-filter bracket kit for all multiple filter head systems manufactured after 2003: 4621-45 (3114-34)

10" and 20", 10 micron nominal filtration replacement cartridges.

EC110 (10") Part Number	4621-41 (9534-40)			
EC210 (20") Part Number	4621-43 (9534-20)			

## Deliming/Sanitizing

#### 4JT Flushing/Sanitizing Cartridge

The preferred way to introduce ScaleKleen™ Scale Remover or other sanitizing agents, such as bleach, into water-using equipment and vending machines.

Warewashing

#### Kleenware HTS-11 Scale Control System

Scale control for hot temperature applications such as warewashing and booster heaters. Inhibits limescale buildup and reduces corrosion. Features metering flow through head, high temperature housing and transparent HT-10 cartridge. Maximum feeder inlet temperature: 170.0°F/76.7°C

Kleenware HTS-11	9799-11
HT-10 Replacement cartridge	9799-22

#### ScaleKleen™ Scale Remover

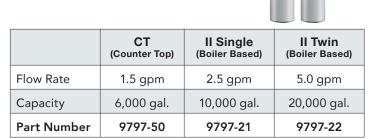

7 oz. packets (24/case)	4621-17 (9798-33)				
2.2 lb. canister (4/case)	9798-35				

### Steam Filtration Systems

## Cuno® Replacements by Everpure®

### Kleensteam Systems

Simple to install, operate, and maintain. Filters water to improve performance and maximize efficiency and equipment life. Inhibits scale and reduces chlorine-induced corrosion.
